

RIIWHS202E - Enter and work in confined spaces

Current unit

Overview

This unit describes the skills and knowledge required to enter and work in confined spaces in the resources and infrastructure industries.

It applies to those working in operational roles. They generally work under supervision to undertake a prescribed range of functions involving known routines and procedures and take responsibility for the quality of work outcomes.

Licensing, legislative and certification requirements that apply to this unit can vary between states, territories and industry sectors. Users must check requirements with relevant body before applying the unit.

Note: The terms Occupational Health and Safety (OHS) and Work Health and Safety (WHS) are equivalent and generally either can be used in the workplace. In jurisdictions where the National Model WHS Legislation has not been implemented RTOs are advised to contextualise the unit of competency by referring to the existing State/Territory OHS legislative requirements.

Entry Requirements

There are no specific academic entry requirements for this unit.

Applicants for this unit are expected to:

- Have a demonstrated capacity in learning, reading, writing, oracy and numeracy competencies to Level 2 of the Australian Core Skills Framework (ACSF). See [Australian Core Skills Framework](#).

The above requirements could be demonstrated by applicants in a variety of ways such as:

- Having completed secondary school to year 10;
- Verified references from an employer indicating that the applicant has demonstrated the above requirements in their workplace;
- Via an interview process that assesses the applicant's skills.
